

Asia Pacific Aircraft Component Services and STRADE Forge Long-term Consignment Agreement to Optimise Aircraft Component Services

SINGAPORE, 27 SEPTEMBER 2023 — Asia Pacific Aircraft Component Services Sdn. Bhd. ("APACS"), a subsidiary of SIA Engineering Company Limited ("SIAEC") and joint venture with SR Technics Switzerland, has entered into a consignment agreement with STRADE Ltd. ("STRADE"), a global specialist in aircraft asset management. This strategic partnership aims to maximise the value of aircraft components owned by APACS through STRADE's innovative solutions to meet the evolving market needs for aircraft components. The agreement is for a term of three years, with an option for further extensions.

Under this agreement, STRADE will actively manage APACS' aircraft components to optimise the efficiency of its utilisation. STRADE will leverage its extensive expertise and worldwide reach to market these components through various channels, including sales, leasing and exchange services over the forthcoming years.

Mr. Martin Urwyler, Managing Director of APACS, said, "STRADE's consignment product enables us to optimise our assets and capital, as well as free up capacity and space. This partnership aligns well with our long-term strategic goals and will enhance our ability to serve our customers efficiently."

Mr. Stephen Fer, the General Manager at STRADE, expressed confidence in STRADE's ability to deliver exceptional value to APACS. He said, "Thanks to our truly global presence and extensive expertise in asset monetisation, airlines and MROs are increasingly relying on STRADE to cover their aircraft lifecycle requirements. We are committed to helping APACS unlock the full financial potential of their assets."

This partnership between APACS and STRADE represents a dynamic step forward for both companies, combining the strengths of two industry players that are committed to excellence and innovation to drive efficiency and value creation.
